EVERY ARTICLE IN THE STORE IS MARKED DOWN

Store Closed All Day Thursday to Mark Goods and Arrange Stock.

SALE STARTS FRIDAY MORNING, JANUARY 14th, 1921 AT 9 A. M.

### DANIELSON AND PUTNAM NEWS

#### DANIELSON

In a letter to the Editor which appeared in The Bulletin of Wednesday morning over the signature John Owen, Secretary Bricklayers and Masons Union, Danielson, the writer takes it upon himself to intimate that the writer of this column is attempting to set himself up as dictator for the entire public.

Here, on the face of it, is an assertion that is entirely unfair, without warrant and wholly false. Its motive may only be assumed.

Mr. Owen's hostile communication was inspired by a few lines that appeared in a recent issue of this paper, in this column, relative to a proposal by the contractors in this territory that wages of bricklayers and masons be reduced from the present scale of \$1.00 to \$7 1/2 cents an hour. The correspondent handed the letter as news, without any personal interest on either side, exactly as another item announcing a reduction of wages of carpenters in this district, effective January 1, was handled and printed at the request of a contractor.

The assertion about the proposed scale for bricklayers and masons came from exactly the same source as the statement relative to the wages of carpenters. Both were plain news propositions of general interest. The correspondent has no personal interest of any nature in them.

As the way was open for a representation of the contractors to make a statement to The Bulletin as to wage scales, so also was it open to the representative of the Bricklayers and Masons Union. Neither Mr. Owen nor any other member of his union offered as much as one word to The Bulletin for publication. Had they done so it would have been as readily accepted as a statement from the contractors. When confronted with this fact Wednesday, Mr. Owen made the lame excuse that "we did not think you would accept it."

Taking this false ground, he proceeded, however, to write a letter to the editor, and therein included statements that have the effect of discrediting the work of the correspondent with thousands of readers and flatly asserts that he is a dictator, when there isn't the slightest excuse under heaven in the premises to say such a thing.

During the war period, as the wage scale of the Bricklayers and Masons Union was being advanced, The Bulletin representative never failed to make mention of the fact and gave the reasons for the climbing rates. These items appeared in the Danielson news column, usually at about the same time as the advertisements and announcements of the advance by the union.

Neither Mr. Owen or any other member of his union wrote letters to the editor to say a word of appreciation for this voluntary publicity given by this correspondent.

But when the correspondent makes mention of an impending proposal to reduce wages, he finds his pen handy and proceeds to write a letter in which he is entirely careless of his statements and the effect they may have. It may be well to state that the Bulletin is as thoroughly and long-standing a union organization as there is in eastern Connecticut or anywhere else in the state.

Any attempt to create a different impression borders on malicious misrepresentation. The paper's columns are open to all legitimate news items from any and every source.

Such items relative to wage scales have recently appeared in this column have come from authoritative sources. If the Bricklayers and Masons Union here has not as yet been apprised officially of the proposition that is to be made to it, that is no fault of the correspondent, who neither advances or reduces the rates of any organization, cares not whether the scale is \$1.00 or \$1.65 an hour or who gets the money.

It will not permit, however, Mr. Owen or the organization for which he speaks to make public misstatements relative to news matter running in this column without instantly changing such unfair work in an fully public manner.

Danielson people were surprised Wednesday morning by the announcement that Frank E. Scott had died suddenly at his home on Broad street, Tuesday night at 11 o'clock. Few knew that Mr. Scott was ill. A week ago he attended the funeral of his wife's mother at North Grovesdale. He was not feeling well that day. Later he developed pneumonia. His illness was not regarded as critical, but his heart suddenly weakened during Tuesday night and he passed away suddenly.

Mr. Scott was born at Waukegan, Feb. 12, 1877, a son of Erasmus W. and Abby Frances Scott. He lived here for many years, however, and for a long time was associated with his father in the manufacture of whip sockets, which were turned out in quantities and sold the country over.

For years past Mr. Scott had been engaged in farming, his place being one of the few remaining farms within the limits of the borough and extending eastward from Broad street, opposite Killingly High school.

Mr. Scott leaves his wife, a daughter, Abby, a son Ralph, two brothers, E. W. Scott and Walter Scott, and two sisters, Mrs. Grace S. Wheatley and Mrs. Lillian.

#### PUTNAM

Funeral services for Mrs. Alonzo Dugbee were held at her home here Wednesday afternoon. Rev. Rowland Merrill of the Congregational church officiating. Burial was in the Burpee mausoleum at Grove Street cemetery. The bearers were Ralph Thurston, Charles L. Dean, C. D. Arnold and Elias M. Wheelock.

The body of William Broughton, a world war soldier, who died of wounds received in action overseas, about a year and a half ago, has arrived in this city from France and a funeral will be held here Friday afternoon.

Mr. Broughton is a son of William Broughton of the town of Thompson and was employed in Southbridge when he was killed in the Intraville Trucking company. This heavy penalty was imposed because the truck was carrying a load in excess of the maximum limit allowed by the law in Connecticut, the total weight of the truck and its load of blueboards of 30 piles of cotton being 20,000 pounds, an excess over the limit of 5,270 pounds.

Wood was on his way from Baltic to Putnam, intending to go over the Cape Cod highway into Rhode Island when he was arrested by Inspector Johnson of the state motor vehicle department. Inspector Johnson believed it was 22 permits Wood to drive on into Putnam, where scales of sufficient capacity weigh trucks and their loads are available, before placing him under arrest, and this he did.

Wood was fined under a statute limiting the total weight of a motor truck and its load to not more than 15,000 pounds. There is another statute under which Wood was fined for exceeding the limit of 5,270 pounds. The statute setting forth fines may be inflicted for driving excessively loaded motor vehicles over any road made for trucking purposes against the highway where the load is placed. The highway where the load is placed is in this section for a violation of this kind.

In court, Attorney Howard C. Bradford acted as prosecutor and Wood was represented by Attorney J. F. Chapman. The fine and costs were \$100.

A Hartford paper of Wednesday last, the Senator Archibald Macdonald of the state and district as chairman in the senate committee of which he was the senate chairman last session.

Mrs. J. H. Bulger and daughter, Grace, have returned from a visit with relatives in Northampton.

It is claimed that this, the Second Congressional district, is the only one that has no representatives in the legislature.

At the annual meeting of the stockholders of the Windham County National bank, the following directors were re-elected, there being no changes from the directors of the past year: Timothy E. Hopkins, Nathan D. Prince, Charles A. Tillinghast, Obadiah Butler, Colonel William A. Gaston, A. Don Bitgood. At a meeting of the directors scheduled to be held Saturday officers will be elected.

Mrs. Henry Hickey, a resident here for a time, is dead at her home in Pomfret, where she had lived a great many years of her long life. Mrs. Thomas Hickey of East Grovesdale is a daughter of Mrs. Hickey, who was one of the well known residents of Pomfret.

Danielson people are much interested and pleased over the fact that Attorney Harry L. Peterson of Norwich, formerly of Danielson, has been appointed as assistant clerk of the senate in the Connecticut legislature, therefore has the way opened for him to pass through all the clerkships of the general assembly.

The annual parish meeting and supper of St. Alban's church was held Thursday evening. The reports showed the parish to be in a flourishing condition. Some good news relative to the school of Danielson getting a new artillery company is expected at an early date. It was stated here Wednesday.

Members of the Bohemian club, who are enrolled for the pipe-smoking tournament will play a series of games at the club rooms this (Thursday) evening.

There was a reminder of no-homestead days here Wednesday when Lieut. Robert H. Peterson of the state police put in an appearance and fixed a case of illegal selling of liquor against a restaurant in the Danielson Inn building. Judge W. Penner Woodward of the town court assessed a fine of \$100. The case was worked up by what in the old days was called the spotter system and a small quantity of liquor was obtained. The prosecution here was under state laws forbidding the sale of liquor in no-homestead towns. The restaurant is not connected with the Danielson Inn.

### How to Tint Your Gray Hair at Home

If your hair is gray or is faded and streaked, do not let it become any more unattractive. No matter whether its original youthful color was golden or black or any shade of brown, all you need is a bottle of Brownstone to make it look like new.

There is a ray of promise for better business in the fact that freight shipments through this city are beginning to increase steadily among the winter and through spring months. This is taken as an indication that some activity is becoming manifest among buyers of textiles and that the manufacturers may soon be receiving orders that will warrant resuming operations at their places.

A case of "hot" and cold was imposed by Judge (releases) at Wednesday morning's session of the city court on Clifton Wood of New Bedford, operator of a T-10 truck of the Intraville Trucking company. This heavy penalty was imposed because the truck was carrying a load in excess of the maximum limit allowed by the law in Connecticut, the total weight of the truck and its load of blueboards of 30 piles of cotton being 20,000 pounds, an excess over the limit of 5,270 pounds.

Wood was on his way from Baltic to Putnam, intending to go over the Cape Cod highway into Rhode Island when he was arrested by Inspector Johnson of the state motor vehicle department. Inspector Johnson believed it was 22 permits Wood to drive on into Putnam, where scales of sufficient capacity weigh trucks and their loads are available, before placing him under arrest, and this he did.
